SUBPART C: REQUIREMENTS – ALL LICENSES

Section 2060.314 COVID-19 Vaccination of Entity Staff

a) For the purposes of this Section,

1) "Entity" means any entity certified as a Substance Use Prevention Treatment program under this Part.

2) "Staff" or "staff person" means any person who:

A) is employed by, volunteers for, or is contracted to provide services for a facility, or is employed by an entity that is contracted to provide services to a facility, and;

B) is in close contact (fewer than 6 feet) with other persons in the entity for more than 15 minutes at least once a week on a regular basis as determined by the entity. The term "staff" or "staff person" does not include any person who is present at the entity for only a short period of time and whose moments of close physical proximity to others on site are fleeting (e.g., contractors making deliveries to a site where they remain physically distanced from others or briefly entering a site to pick up a shipment).

3) "COVID-19 vaccine" means a vaccine for COVID-19 that has been authorized for emergency use, licensed, or otherwise approved by the U.S. Food and Drug Administration (FDA).

4) An individual is "fully vaccinated against COVID-19" two weeks after receiving the second dose in a two-dose series of a COVID-19 vaccine

authorized for emergency use, licensed, or otherwise approved by the FDA, or two weeks after receiving a single-dose COVID-19 vaccine authorized for emergency use, licensed, or otherwise approved by the FDA.

b) Each entity shall require all staff to be fully vaccinated against COVID-19 or be tested in a manner consistent with the requirements of Subsection (c).

1) Each entity shall require staff who are not fully vaccinated against COVID-19 to have, at a minimum, the first dose of a two-dose vaccination series or a single-dose vaccination by September 19, 2021, and be fully vaccinated against COVID-19 within 30 days following administration of their first dose in a two-dose vaccination series.

2) Each entity shall require staff who are fully vaccinated against COVID-19 to submit proof of full vaccination against COVID-19. Proof of vaccination may be met by providing to the entity one of the following: (i) a Centers for Disease Control and Prevention (CDC) COVID-19 vaccination record card or photo of the card; (ii) documentation of vaccination from a health care provider or electronic health record; or (iii) state immunization records.

3) Each entity shall make available opportunities for staff to be fully vaccinated against COVID-19, either directly at the entity or indirectly, such as through an arrangement with a pharmacy partner, local health department, or other appropriate health entity.

4) Each entity shall exempt individual staff members from the requirement that all staff be fully vaccinated against COVID-19 if (i) vaccination is medically contraindicated, including any individual staff member who is entitled to an accommodation under the Americans with Disabilities Act or any other law applicable to a disability-related reasonable accommodation; or (ii) vaccination would require the individual staff member to violate or forgo a sincerely held religious belief, practice, or observance. Staff that fall within the exemption of this Subsection shall undergo the testing requirements set forth in Subsection (c).

5) Entities may adopt more stringent policies requiring all staff to be vaccinated. Nothing in this Section supersedes or modifies the date such policies are designated by the entity to take effect.

c) Beginning by September 19, 2021, each entity shall require its staff who are not fully vaccinated against COVID-19 to undergo testing for COVID-19, weekly, at

a minimum. If staff who are not fully vaccinated against COVID-19 are not tested as required by this Subsection, the staff shall not be permitted to enter or work at the entity.

1) The COVID-19 test must either have Emergency Use Authorization by the FDA or be operated pursuant to the Laboratory Developed Test requirements by the U.S. Centers for Medicare and Medicaid Services.

2) Such testing must be conducted on-site at the entity or the entity must obtain proof or confirmation from the staff person of the negative test result obtained elsewhere.

3) Each entity shall make COVID-19 tests available to its staff consistent with the requirements of this Section, or consistent with any more stringent requirements for testing adopted by the entity.

4) If a staff person tests positive for COVID-19, the entity shall exclude the staff person from the entity and the staff person shall be subject to all applicable isolation and quarantine rules and entity policies.

5) Staff who are not fully vaccinated may be permitted to enter or work at the entity while they are waiting to receive the results of their weekly test.

d) Each entity shall post conspicuous signage throughout the entity, including at points of entry and exit and each hallway, notifying staff that the entity makes available opportunities for staff to be fully vaccinated against COVID-19. The signs shall be on 8.5 by 11-inch white paper, with text in Calibri (body) font and 26-point type in black letters.

e) Each entity shall provide its staff educational materials on the benefits and potential risks associated with the COVID-19 vaccine.

f) Each entity shall maintain a record of the following:

1) Weekly census of staff;

2) Weekly census of staff who are fully vaccinated against COVID-19;

3) Weekly census of staff who are not fully vaccinated against COVID-19;

4) Weekly census of staff who not fully vaccinated for COVID-19 and are tested for COVID-19 (regardless where testing occurred), including the number of individuals who test positive; and

5) Verification that all staff have been provided education on the benefits and potential risks associated with the COVID-19 vaccine.

g) Within 45 business days after the adoption of this Section, each entity shall attest to the Department that the entity has made available opportunities for staff to be fully vaccinated against COVID-19 and is making testing available to staff that are not fully vaccinated in accordance with Subsection (c).

h) Nothing in this Section prohibits any entity from implementing vaccination or testing requirements for staff, residents, and visitors that exceed the requirements of this Section.

i) Failure to comply with any of the requirements set forth in this Section creates a substantial probability of risk of death or serious mental or physical harm and shall result in the imposition of sanctions against the organization's license as defined and further specified in Section 2060.339 herein.
